Desk Reverie -

Dear Parents,

It is said that "Schools are the Temples of Learning" and I firmly believe in it. Each moment spent in the school becomes a learning experience for the child where he/she acquires knowledge and skills from the trained staff, imbibe moral values, build up character and good behaviour patterns.

We live in a society strongly characterized by technological and scientific skills which results in a culture of greed and selfishness. It is our duty to provide our children the means to acquire knowledge and skills necessary to find a place in society and to live their lives with responsibility and dignity.

What we need today is a paradigm shift from education for amassing wealth, personal glory and power to 'Education for Life', for social transformation and empowerment. Education for life would provide insights and skills that would help one to live life meaningfully with true freedom and respect for one's own life and that of others. It promotes in the children values of love, fraternity, justice, peace, sharing and tolerance which are excellent means to build up and create a new humanity, a new society and an inclusive society. Today what we are is the outcome of what we valued yesterday and tomorrow it will be the result of whatever we value today. Let us dream that our world would be blessed with enlightened leaders and responsible citizens who care for humanity in the years ahead.

It is my earnest desire and that every child who enters this 'Temple of Learning' aspire to become a true leader who would redeem this ancient land of ours from the present moral crisis and place it on the path of true freedom. I thank God Almighty for His Love, lasting presence and guidance during the past year. May He continue to journey with us and shower His blessing and grace upon us!

Editorial ...

'A human being is not, in proper sense, a human being till he is educated.'

I am immensely pleased to present the Xth version of the school newsletter.

The year 2012-13 proved to be yet another adventurous voyage of its own in the school chronical.

The aim of education is not merely the acquisition of information. The goal is commitment of knowledge and advancement of learning. Excellencia consists of a fresh miscellanea mirroring the brilliant ideas of the innovative and fertile brains of the students. The efforts of the contributors make conspicuous the creativity and versatility of their intrinsic skills and talents.

The judicious and prudent approval to all things constructive and meaningful has been our encouragement in this efforts and would not have seen the light of day without the thoughtful support of our manager Rev. Sr. Rita, Principal Rev. Sr. Rose, Vice principal Rev. Sr. Amrita and the staff.

Dear girls & women

We have been gifted by God with a power to design the world into a better place. We are the first teachers to the tomorrow of society. Only a good, disciplined and value-based education can teach us not to compete with the male gender in a foul manner. Our society is at the cusp of a paradigm change and a filtered education can not only make us gain confidence but also aid us turn as beautiful and elegant souls. Moreover, a missionary culture makes students instil values like charity and solidarity of emotions which help them earn respect in society.

So, let us rule over the world from aeronautic nooks to medical corners and political platform to kitchen Slabs. For a safer future lets accept the challenge for a dual responsibility. Leaders of society along with mentors of it.

Wishing you all only the best in life.

विज्ञान

पूरी धरा पर बन बादल ये छाया।
आसान हुआ अब हर एक काम,
यह विज्ञान है जिसने सबकुछ रचाया।
मानव के मस्तिष्क की है यह उपज,
छोड़ पैदल हमें उड़ना सिखाया।
मर्याद बन काम हो जाये पूरा,
यह विज्ञान है जिसने सम्झा बताया।
विकसित किए कई उद्योग धंधे,
यह विज्ञान है जिसने योग्य कराया।
दुनिया में छाई अब इसकी भाया,
धरती के नीचे छिपे भेद लाखों।
यह विज्ञान है जिसने होल-हर दिखसा।
सब कूल के जैसे होते हैं काले,
वेतन ही इतने दिव्य भी करसा।
मशीनीकरण हुआ हर जगह अब,
यह विज्ञान है जिसने सब कुछ समझा।
विज्ञान एक तलवार है, जिसने दोनों तरफ
एक सा धार है मरणा।
रखा करो अपनी या खुद को कांटे,
यह सफाई इस पर निर्भर है।
यह विज्ञान है जिसने सबकुछ समझा।

जिन्दगी

यह जिन्दगी एक किताब है, पर पीज लाजवाब है।
यह एक हसीन छाया है, पर परेशानियों का नकाब है।
चुनौतियों की बजह से, आ जाता इसमें सहारा है।
पर इसी सहारा में तो, जीवन का महत्व है।
कभी हंसना, कभी रोना, कभी पाना, कभी खोना,
कभी भुप, कभी छीप, कितनी हसीन, कितनी करुण।
यही है जिन्दगी का असली स्वरूप।
दर्द भरी पीछों का यह, संका रेगिस्तान है।
हँसी और किलकारियों का, यह ऊँचा आसमान है।

बेटियाँ

मेरे दिल की पुकार है बेटियाँ।
माता पिता को घर की शान हैं बेटियाँ।
बोवनी राह में लडक देते हैं अगर बेटे।
तो तपती भूप में छाव हैं बेटियाँ।
दोरा अगर है बेटा।
तो सपना मोती हैं बेटियाँ।
घंटा अगर बजता है बेटा।
तो दो-दो कुल की लाज हैं बेटियाँ।
फूलों की राह पर अगर चलते हैं बेटे।
तो काँटों की राह से बचाती हैं बेटियाँ।
समाज में इज्जत मिलती है बेटों को।
पर असली हकदार होती हैं बेटियाँ।
