appointment as the Bishop of
Allahabad Diocese*

From the Principal's Desk

Cultivating a Culture of Learning: The Heartbeat of Mariampur School

Dear Mariampur Community,

As it's crucial to reflect on the essence of our educational journey, our school marks with the history of around 7 decades. At the heart of our school, lies a commitment to fostering a vibrant culture of learning—a culture that transcends the mere gaining of knowledge and empowers our students to become lifelong learners and compassionate leaders.

Education, to us, is not confined within the walls of a classroom. It's a dynamic interchange between dedicated teachers, eager learners, and a supportive community including the parents and well-wishers. Together, we weave a tapestry of experiences, nurturing the intellect, igniting curiosity, and kindling the flames of creativity in every individual who walks through our doors.

At Mariampur School, we understand that true learning extends beyond textbook tests. It's about nurturing the whole child—mind, body, and spirit. Our holistic approach to education encompasses an enriching academic rigor, artistic expression, athletic prowess, moral and skill development.

In our classrooms, we strive to create an environment that inspire intellectual curiosity, emotional intelligence and critical thinking. Our educators are not just propagators of information to the students but facilitators of exploration, guide and companion on a journey of discovery and self-realization. We embrace diversity in all its forms and equality, recognizing that it enriches our learning environment and prepares our students to thrive in a interconnected tec savvy world.

Beyond academics, our extracurricular activities offer a plethora of opportunities for students to explore their interests and passions. Whether it's through sports, music, drama, or community service, every student has the chance to discover their unique talents and develop essential life skills such as teamwork, resilience, and leadership.

Moreover, we believe in instilling a sense of social responsibility and global citizenship in our students. By fostering empathy, compassion, truthfulness and a sense of justice, we empower our students to be agents of positive change in the society. Together, let us continue to uphold the values that define us as a community—integrity, respect, discipline and a relentless pursuit of knowledge.

In closing, I would like to express my gratitude to the entire school community—students, parents, educators, and all the staff members—for your unwavering dedication, cooperation and support. It is through our collective efforts that we will continue to inspire and empower the next generation of leaders, educators, thinkers, and innovators.

Rev. Sr. Ranjana

May God bless us all !

From the Manager's Desk

Striving for Excellence

The educational institution of Mariampur School strives for excellence by preparing the students to learn beyond their academic subjects and assist them to become life long learners. What is excellence? Excellence is not perfection. It is not winning everything. You have to commit yourselves to excellence and be the very best at the work that you do i.e. work hard, strive to learn and improve all the time. Some people are outgoing while others are introspective. Some are thinkers rather than doers. Some are ahead of their time; many are behind. Some are musical geniuses; most are not. Some are great preachers; many are not. Some are very good in sports; many are not. But whatever category you are in right now you can make that, deliberate to move a life of excellence. Someone who is excellent is the prime mover of the society he belongs to. He nurtures, inspires and empowers the society and radiates hope amidst many challenges. The two ways to be excellent are firstly to Be Positive. It is a vital ingredient to achieve excellence. In order to be an optimistic you must be proactive and cheerful in all life situations, instil hope in people in the face of obstacles, find opportunities in every challenges, shun all kind of negative thoughts, be realistic and look for options and alternative solutions in difficulties.

Secondly Be Creative. Creativity opens the mind, broadens the perspectives, helps student to develop critical thinking skills, enhances personal growth and helps to generate new ideas and new solutions to problems. Creative activities stimulate the brain and this can lead to improved memory. The children of today's era are full of creative and innovative ideas. They do their best to achieve their goals and dreams and to reach to the new heights of excellence.

I wish and pray that by God's grace and blessings all our children may reach to the new heights of excellence.

I take this opportunity to express my gratitude to all the parents, teachers, and all the staff for the generous cooperation and support.

Rev. Sr. Rupa

From the Office Administrator's Desk

Hard Work is the Key to Success

The person who works hard is able to achieve success and happiness in life. Nothing is easy to be achieved in life without doing any hard work. Thomas Edison worked for 21 hours a day, and slept only for 2 or 3 hours on the laboratory tables with his books and his pillow. No one can achieve greatness without effort. Hard work serves as the foundation for achieving great goals. Nothing unusual happens without it. It takes effort to become organized. The one who consistently works hard will undoubtedly succeed in life. Successful people can handle both success and failure because they have a strong work ethic. They comprehend that no victory is final and that no failure is ever irreparable. Hard work and careful planning are essential for success. Most people who put in a lot of efforts fail because their efforts are not focused in the right way. Additionally, it is ineffective to solely rely on luck to succeed.

Our goal should be to succeed in our field of study after putting a lot of effort into it.

Rev. Sr. Litty

From the Editor

Dear Readers,

Welcome back to another issue of our school magazine 'EXCELLENTIA'. As we journey through the academic year 2023-24 we are thrilled to share with you the latest happening, achievements and insights from our school community. Join us in celebrating the accomplishments of our students from academic achievements to the artistic endeavors, athletic triumphs etc. Through captivating and thought provoking writings and innovative science projects our students continue to impress us with their creativity and ingenuity. The snapshots explore the vibrant tapestry of life of our school campus. Our efforts are also enriched by the active involvement of inspiring alumni who have made their mark in every profession and walk of life to serve as shining examples of exceptional holistic education being offered at Mariampur School. As we move towards a new journey, we wish that keeping our roots firmly on the ground and yet reaching the sky will enable our learners to embark on another new journey with new avenues to explore and opportunities to invent. We want to express our gratitude to our Manager, Principal, Administrator, Staff, Parents & Students for their support, dedication & enthusiasm.

Let's continue to inspire & uplift one another as we journey forward on our shared path of growth and learning.

Eschew Plastic 'n' Embrace Planet

The world annually celebrates 'International Mother Earth Day' on 22nd April under various themes. Earth Day 2024 as the 54th Earth Day has given an urgent theme as Planet vs. Plastics to promote environmental protection and climate action. The Day offers a perfect opportunity for people across the world to get involved through the many events and activities that take place globally in celebration and advocacy of Mother Earth. It encourages people to adopt sustainable practices in their daily lives such as reducing waste, conserving energy, and choosing eco-friendly products. World Earth Day's significance extends beyond a single day on the calendar. As long as we live on this earth, everyday ought to be an 'Earth Day' and be aware of the fact that the earth's environment where we live and move is not separate from us but part of us. The students in schools across India can participate in "Planet vs. Plastics" activities by adopting more sustainable habits such as stop buying drinks that come in single-use plastic bottles such as soda, juice, water, milk, smoothies etc. and opt for drinks and eatables that come packaged in aluminum, glass or carton containers. Our planet is choking on plastic. A million plastic drinking bottles are purchased every minute and every year, up to 5 trillion disposable plastic bags are used. Pope Francis, an ardent champion of Environment Protection who published his world-hit Encyclical: *Laudato Si'* (praising God for Nature) in 2015 succinctly puts, "Throwing away plastic in the sea is criminal as it kills biodiversity, the whole earth".

Victory in every Stride

Kanpur Sahodaya School Competition 2023-24

Winner of Inter School Kho Kho Match

Mariampur School emerged victorious in the KSS Inter School Kho - Kho match competition held in Maharana Pratap School, Kanpur on 8th November 2023. With swift manoeuvres, synchronise teamwork, our student outplayed their opponents.

Inauguration of Mariampur Kindergarten

The official opening of the newly constructed Mariampur Kindergarten was done by His Lordship Rt. Rev. Louis Mascarenhas, Bishop of Allahabad Diocese, Parish Priest of St. Francis Xavier's Church Rev. Fr. Deepak Oswald D' Souza, Provincial Superior Rev. Sr. Pushpa UMI, Manager Rev. Sr. Rupa UMI, Principal Rev. Sr. Ranjana.

Transformative Impact

The renovation and construction project within the school.

- Relocation of Principal's Office
- Renovation, Construction of Chemistry Lab
- Revitalizing Space - Sports Room, Female Washrooms, Front Office
- Railing and Fencing the Corridors for safety

Welcome- Superior General Rev. Sr. Vandana Fernandes & Asst. General Rev. Sr. Nirupa

Investiture Ceremony

A leader is the one who knows the way ,goes the way & shows the way

Vidyaarambh

Gathering of Little Scholars

It was a momentous event which was initiated for the first time in Mariampur School signifying the unlocking of the young minds and their formal education. The Principal Rev. Sr. Ranjana along with the teachers bestowed blessings upon each child by helping them to write the alphabets on the plate of rice holding their fingers.

The Power of Prayer

May all be happy !

May all be free from disease !

May all realise what is good !

May none be subject to misery.

Prayer is a beautiful ritual of heart to understand and realise God and remain in his perpetual glory. I

am often asked what makes Mariampur school different from other schools. A part of what makes

us unique are the Human values that Mariampur holds up of faith and trust in the Almighty, which

ultimately becomes the anchor to face the challenges around. We pride ourselves that we strive to

kindle the young minds and enliven the hearts of our children with the light of knowledge so that

they can equip themselves with adequate sensibility and sensitivity of head and heart and walk on

the path of life paving the way for others to follow.

The excellent achievement of our students in various fields bear testimony to the fact that we

believe in the dictum - Work is Worship. There are only two lasting gifts we can give our children -

one is Roots and the other is Wings. So dear children, no one set limits for you. Spread the wings of

life wide and fly high !

Your sky is as much as you want to reach.

Ask God to be the Master builder of your Life !

In The Words of Walt Disney "If you can dream it, you can do it." May God bless Mariampur family

now and always.

With deep conviction in the Divine Power, I look forward to more glossy and successful years.

Senior Co-ordinator

Celebrating Imperfections: Path to authenticity & Growth

In a world that often celebrates perfection, it is important to recognize and embrace the beauty of imperfection. Imperfections are what make us unique, authentic, and human. Embracing imperfection can lead to personal growth and a more fulfilling life.

Society often portrays perfection as an ideal to strive for, whether it's in our appearance, achievements, or relationships. However, the pursuit of perfection can be exhausting and unattainable. It is essential to recognize that perfection is an illusion, and the true beauty lies in embracing our flaws and imperfections.

Mistakes are an inevitable part of life, and they offer valuable opportunities for growth and learning. Embracing imperfection means accepting that we will make mistakes and understanding that they do not define us. Instead, they serve as stepping stones toward personal development and self-improvement.

Fear of judgment often holds us back from fully embracing our imperfections. However, when we let go of the fear of being judged, we free ourselves to explore new possibilities and take risks. Embracing imperfection means accepting that not everyone will approve or understand, but that does not diminish our worth or value.

Imperfections can be beautiful and add depth to our lives. Just as a cracked vase can be more interesting than a flawless one, our imperfections can make us more intriguing and relatable. Embracing imperfection allows us to see the beauty in the imperfect moments, the unexpected detours, and the lessons learned along the way.

Embracing imperfection is a transformative mindset that liberates us from the pressure of perfection and allows us to live authentically. By accepting our flaws, learning from our mistakes, and cultivating self-compassion, we embark on a journey of personal growth and self-discovery. Let us celebrate our imperfections, for they are the threads that weave the tapestry of our unique and beautiful lives.

Junior Co-ordinator

Nurturing Relationships with Parents

Importance of Respect & Trust

As educators, it is our responsibility not only to nurture your academic growth but also to foster your personal development. Today, I wish to delve on the vital role that respect and trust play in your relationship with your parents. Parents are your first teachers, caregivers, and mentors. They dedicate their lives to your well-being and happiness. It is essential to recognize and appreciate their sacrifices, guidance, and love. Parents are the greatest allies and advocates deserving utmost respect and trust. Respecting them involves valuing their opinions, listening to their advice, and honouring their decisions, knowing they have your best interests at heart. It entails treating them with kindness, patience, and understanding, recognizing their unwavering support. Their love, guidance, and encouragement are vital for academic success, personal development, and overall well-being. Children especially teenagers should actively listen, communicate respectfully, and consider their parents' perspectives. Trusting your parents means believing in their intentions, relying on their support, and confiding in them during difficult times. Open communication and honesty, strengthen the bond between you and your parents. You must also learn to take responsibility for your actions. Regularly attending classes, meeting academic commitments, assisting with household chores, and demonstrating maturity are vital steps towards growth and independence. Expressing gratitude towards parents for their love and support is fundamental. As you navigate through adolescence and beyond, remember the invaluable role that your parents play in shaping your character and guiding your journey. Let us strive to cultivate a culture of respect and trust within our families and communities. Let us continue to support one another in our quest for personal growth and fulfilment.

Tips to Succeed in Life

Dear Students

In the journey of life we often encounter hurdles and challenges that might make us feel afraid of failing. But remember, it's these very challenges that shape us into the strong individuals we are meant to be. You are meant to shine in life, to reach the zenith, but that requires consistency and determination. Always be persistent, give your best, and never give up, even when things get difficult. When you do so, you build momentum, moving a step closer towards your goals. Stay committed to your dreams, remain steadfast in your efforts, and soon enough you'll find yourself thriving in the realm of success. Remember, success isn't achieved overnight. So trust yourself, embrace consistency, stay focused and watch your dreams turn into reality. At the end I would just say- Don't be afraid of falling down if you want your life to be a crown. Always be ready for a RESTART And remember, you have to work hard. Don't be in a rush or else you'll fall instead, tiptoe towards that high wall. Be consistent in whatever you do Only then you will reach the blue.

Love and blessings

Navigating challenges for examinations

'Examination is a festival'. Exams help students to self-assess their academic abilities and set realistic goals and develop strategies to achieve them. An opportunity to take an examination definitely comes in every person's life and how successful or unsuccessful that person is in that examination depends on his ability and hard work. We all have to give exams everywhere to be successful in this world. It is believed that examinations are a medium to test one's knowledge and experience. Examinations inspire healthy competition among students and help them to organize their curriculum. Examinations motivate us to achieve our predetermined objectives/goals and also check to what extent we have achieved them. If a person moves forward with the experience gained through his intelligence and knowledge, then he can achieve success in any exam. Similarly, when real-life tests come, our experience comes in handy, how much and what experiences we have gained from various events of our life. Whatever kind of exams we face, be it school exams as a student or exams in our life, at that time we should not think whether we will get success or failure, we should just handle our experiences skillfully and with complete honesty.

Unlocking the power of Artificial Intelligence

Artificial Intelligence (AI) has emerged as a recalibrating force across various industries, and so education is no exception. The merging of AI technologies with education is to bring a new change in the conventional teaching methods. Artificial intelligence plays an increasingly significant role in transforming how students learn and how teachers instruct. AI systems may assist in instruction, assessment, and real-time feedback & tutoring whereas the role of teachers as mentors, motivators, and facilitators of learning will remain essential. The impact of AI on the future of education and the potential benefits to students and educators is Personalized Learning, Intelligent Tutoring Systems, Automated Grading and Feedback, Smart Content Creation, Predictive Analytics and Early Intervention at the same time it also helps in enhancing administrative tasks in educational institutes. AI is all set to escalate the educational ecosystem. We can expect more vivid learning tapestry in the future! The future seems bright with AI as its use makes learning easier and more accessible. It strengthens and supports the concept of individualized learning and adds to the convenience.

As we embrace the future of education, harnessing the power of AI will play a vital role in nurturing the next generation of lifelong learners.

सफलता हेतु सही दिशा

ऐसा कहा जाता है दिशा से ही किसी व्यक्ति की सही दशा निर्धारित होती है। मानव जीवन के हर पड़ाव पर यह कथन सत्य सिद्ध होता है। यदि विद्यार्थी जीवन में ही इस कथन को आत्मसात(स्वीकार) कर लिया जाए तो निश्चय ही जीवन के प्रत्येक पड़ाव पर सफलता ही प्राप्त होती है।

छात्र जीवन यह एक ऐसा काल है जब हमारे कई शुभचिंतक या मार्गदर्शक हमें शिक्षा के माध्यम से सफल भविष्य की ओर अग्रसर करते हैं।

मार्गदर्शक का कार्य सही मार्ग दिखाना होता है, किंतु लक्ष्य निर्धारण करना स्वयं पर निर्भर करता है। जब हम भविष्य के लिए अपना लक्ष्य निर्धारित करते हैं तब हमारे अंदर इतनी बौद्धिक क्षमता का विकास हो चुका होता है कि हम अपनी क्षमता को पहचान सकें। उदाहरण हेतु मेरी क्षमता शिक्षक बनने की है तो मुझे उसी दिशा में प्रयत्न करना चाहिए न कि विपरीत दिशा में। छात्र अपने सहपाठियों की देखा-देखी अपनी क्षमता के विपरीत लक्ष्य निर्धारित कर लेते हैं और असफल हो जाते हैं। अज्ञानता के कारण वे यह नहीं समझ पाते कि प्रत्येक व्यक्ति का अपना अलग-अलग कौशल होता है। यदि हम ईमानदारी से परिश्रम करें तो निश्चय ही सफल होंगे। दुर्भाग्यवश यदि हम सफल नहीं हो पाते तो निश्चय मानिए कि हमारे परिश्रम में कहीं न कहीं ईमानदारी का अभाव है। अतः विद्यार्थी वर्ग को मेरा सुझाव है कि सर्वप्रथम अपनी क्षमता को पहचानकर, लक्ष्य चुने एवं ईमानदारी से परिश्रम करें

यदि आप ऐसा करते हैं तो यकीन मानिए कि आप अपने लक्ष्य को शत-प्रतिशत प्राप्त करेंगे।

अनामिका तिवारी
अध्यापिका

प्रेरणादायक संदेश: आत्मविश्वास

कहा जाता है कि हमारे हाथ की पांचो उंगलियां एक समान नहीं होती। उसी प्रकार कक्षा में हर छात्र दूसरे से भिन्न होता है। सब की अपनी-अपनी मानसिकता होती है। हम उन्हें बदल तो नहीं सकते किंतु उसमें सुधार अवश्य कर सकते हैं इस दिशा में आत्मविश्वास की अहम भूमिका है। जब हम अपनी कमियों और असफलताओं को जानेंगे तभी उन्हें दूर कर पाएंगे। असफल होने पर आत्मविश्वास प्रभावित होता है किंतु ऐसे समय में अभिभावकों को भी अपने बच्चों की तुलना कक्षा के अन्य बच्चों से नहीं करनी चाहिए।

स्वयं पर विश्वास ही हमें निर्णय लेने व लक्ष्य निर्धारण करने में सहायता करता है। इस प्रकार आत्मविश्वास सफलता प्राप्त करने की पहली सीढ़ी है। आत्मविश्वास हमें अपनी असफलता का सामना करने और उसे सकारात्मक दृष्टि से स्वीकार करने के लिए प्रेरित करता है। आत्मविश्वासी व्यक्ति भाग्य के भरोसे नहीं रहता। वह सदैव कर्म को ही प्रधानता देता है। यह एक क्रमिक एवं निरंतर होने वाली प्रक्रिया है। हम क्षण भर में आत्मविश्वासी नहीं बन सकते। अतः अपने लक्ष्य को निर्धारित करके अपनी त्रुटियों पर ध्यान देकर हम आत्मविश्वास के साथ उन्नति के मार्ग पर अग्रसर हो सकते हैं।

Destiny

The days are getting undoubtedly hard,
Not less than a menacing war.
Things aren't by our side,
But then who's gonna fly the kite of life?
Suspecting everyone around,
Flapping the special ones in a crowd.
The age of quarrel is here
Not a sign of faith in the air.
The worthy ones are quilt,
Rust are ready to fight
The striking wige to be the one,
But then how to be summon?
The dark age is here,
Nobody is here for the prayer.
only if you could take your care;
The destiny would play the fair.

Aaditri Mishra (XII Sci)

I am just a kid

I am Just a kid, I want to keep believing
in shooting stars,
I hate watching how today's world is
falling apart.

A kid who wants to fly to the moon,
that I keep watching from my room,
want to know how everything truly
feels,
or hearing the crowd hail for me that
I've only heard on TV.

I don't wish for luxuries,
but I've heard the stories,
of people and their glory,
and they say we all are a unique story.
I wish to be the main character of
something greater,
I want to feel both, the summer and the
rain,

and be ready for all kinds of adventure, whether it's a stopped car or a moving train.

I am just a kid, I want to feel big like an adult.

But don't want to grow old ever
I am just a kid who wants to wear my
heart out on my sleeves,
And be the hero on the real screen.

Aditi Mishra (10A)

THAT LADY

I know someone who is a pillar of qualities Yes, she's that lady!
Even if u don't initiate, she'll talk to you and if you wouldn't
want to share then she'll comfort you
She's that sweet lady.
Even if she's in pain then too she'll help u, even if you don't ask
for help then too she'll give a hand
She's that kind lady.
She puts a smile on her face but who knows if she's crying inside
She's that strong lady.
Everybody sleeps but who knows she might be awake whole
night
She's that caring lady.
She keeps smiling but who knows if there lives a frown behind it
She has become that good actress lately.
I know someone who is a pillar of qualities
Yes, she's that lady!

AKANSHA SRIVASTAVA (11 Sci)

Collect moments not things

I agree things hold memories.
But moments are something, that we cherish.
We might capture the things around us,
But moments are something that stay forever.
You might not have that first toy of yours,
But the moments with it still wander in your head.
Take my note, I bet to you
Things might leave but moments will not.
I won't differentiate things and moments,
But will remind you,
that things do cost but
moments will not.

Archita Tiwari (XII-Sci)

“रात में”

चाँदनी रात में, बात ही बात में ✨
 एक राज खुल गया।
 चाँद भी बादलों से बात करता हुआ ✨
 उनकी ओट में छिप गया ॥
 तारे जो टिमटिमा रहे थे ✨
 वो भी आलस में आ गये।
 चारों तरफ उदासी के ✨
 पीले चेहरे दा गये ॥
 मैं भी उदास थी ✨
 अपने कमरे में रात भर।
 यादों की सरगम ✨
 फैली थी मन में रात भर ॥
 चाह कर भी मुझे ✨
 सपनों वाली नींद न आई।
 और थोड़ी ही देर में ✨
 भोर की अजियारी दा गई ॥

देखी उसे, चला जा रहा है
 उड़ते हुए उन वादियों में,
 न जान न पहचान
 चला वो हासिल करने अपना मुकाम,
 वो था कौरा कागज़

फाड़ा गया मरोड़ा गया
 कभी जमीन पर तो कभी किसी के पाँव के नीचे,
 नहीं गई उसमें लिखी बातें,
 फीका पड़ गया उसका रंग
 वो था कौरा कागज़

सोचा था जाएगा किसी दिग्गज की कलम के नीचे
 आज वो दर-दर भटकता है,
 एक समय पर जो था अहंकारी
 अब जाकर जान पाया दुनिया-दारी
 वो था कौरा कागज़
 वो था कौरा कागज़

Our Budding Bards

Still figuring it out.

It's been 2 years
since I've written
something. Maybe
was figuring
myself out.

Maybe was busy with academics & things.
Back again to take shelter in this world of peace in the
midst of the noise that's too loud.

Experience?

What's that anyways.

Something which you gain everyday and seem to
never use it for a day.

Good or bad.. changes your perspective from
one to another every single day.

How delusional, still greedy for it, thinking
it'll change my life one day.

Time?

What's that anyways.

Cruel yet beautiful, moving yet
constant, less yet more.

Mysterious yet straightforward.

How delusional, still greedy for it,
thinking I've a lot of it but none of it.

Hope?

Riddhima Srivastava
XI-Sci

Beauty

Whenever I want to praise you,
The words I find are very few.

You are just like a Pole star,
So beautiful, yet so far.

Did someone ever told?

The beauty you hold !

Can never be described in words,

And that actually hurts

Your eyes like the deep blue sea,
Hold mysteries that enchant me
endlessly.

In those eyes, a spell is cast,

A Captivating gaze that holds you fast.

Like an ocean deep, they draw you near,
Lost in their depths, all worries disappear.

Now, Let me adore you for a while,

Forever melts when you smile.

As I told, The beauty you hold.

Can never be described in words,

And that actually hurts.

Tejeshwani Singh
XI-Sci

Our Budding Bards

The Right Way

Who knows that I am going the right way?
Same thought revolves around me everyday
was it the right choice?
Will my results make noise ?
I am slow and life is a race.
But I'm working hard to be at right place.
but who knows that I am going the right
way?
The efforts my parents make for me each
day.
Will I be able to repay?
People have dreams, I have one too,
Confidence is all I have to pursue.
I wish someone could tell me I am not
making any mistake,
In taking the decisions for my future, that is
on the mark.
Maybe its not always academic, sometimes
its people around us,
who makes us feel low and creates the fuss.
But still, I am at the same place,
Slowly and gradually improving my pace.
Still who knows I am going the right way?
I hope it leads me to my goal for which I
pray.

Shatakshi Mishra (12 Sci)

Subjects

Geography is full of maps.
History is full of old chaps,
Economics is full of financial data.
Civics is full of politics.
Many secrets Science keeps,
But often I see my classmates sleep.
A. I is full of technology,
But we are well trained.
Maths really makes us happy,
We are able to learn formulas.
Winter, Summer or Autumn,
I don't know why Hindi is at the bottom.
Chocolate, ice-cream and lollipops,
English is at the top.
Lastly, I would like to tell you all,
East or West, Games is the best
For that we have no tests

It's Always Been Me

It's always been Me and I,
To be up and superior.
Only till the world at me sigh,
When the proud me left drearier.

The board tells left,
And I fly right.
Reined the reason of my theft,
Not as far as my sight.

I looked weary,
Realised the honey hands that followed,
Consoled my eyes teary,
Got up and swallowed.

But again it beyond felt,
Courageous enough to crawl.
Ahead to the bright sun I melt,
Ahead to the vast field that sprawl.

I looked upto honey-hands that followed,
Those, honey-hands-heaven,
Rewarded a fruit : ripe and fresh.

कविता

‘कुद करना है, तो इटकर चल’

कुद करना है, तो इटकर चल।
थोड़ा दुनिया से इटकर चल।
लीक पर तो सभी चल लेते हैं।
कभी इतिहास को पलटकर चल ॥

बिना काम के मुकाम कैसा ?
बिना मेहनत के, दाम कैसा ?
जब तक ना हासिल हो मंज़िल
तो राह में, आशम कैसा ?

अर्जुन सा, निशाना रख।
मर्ने में ना कोई बहाना रख।
लक्ष्य सामने है, बस उसी पे अपना ठिकाना रख ॥

सौच मत, साकार कर
अपने कर्मों से प्यार कर।
मिलेगा तेरी मेहनत का फल।
किसी और का ना इंतज़ार कर ॥

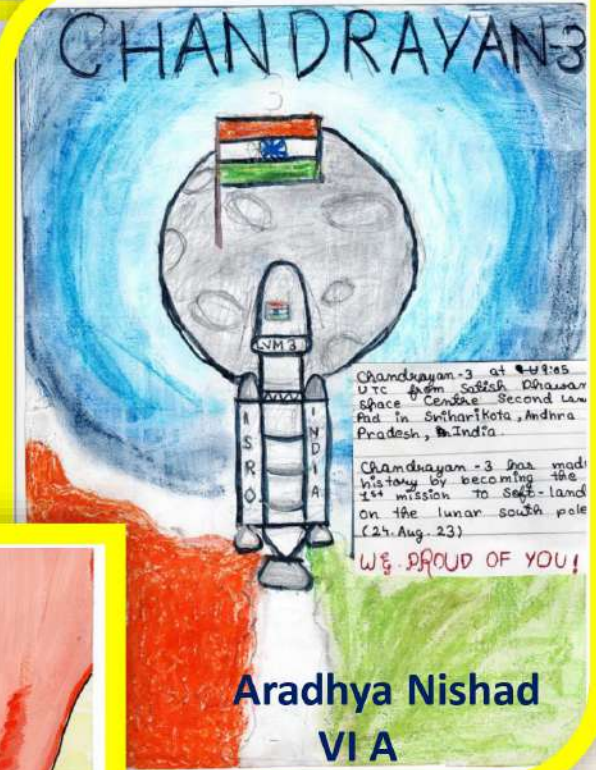

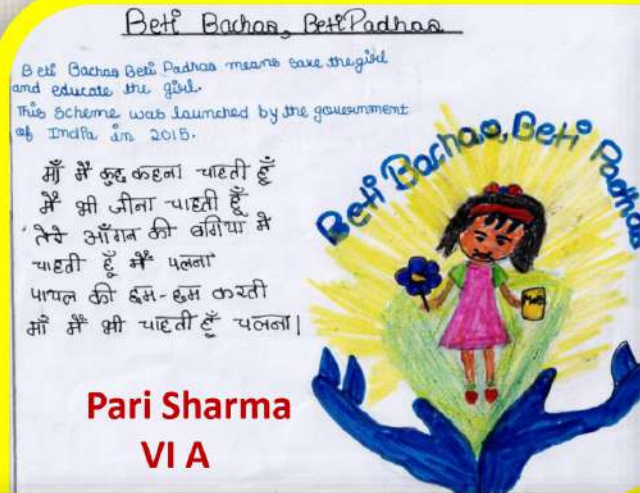

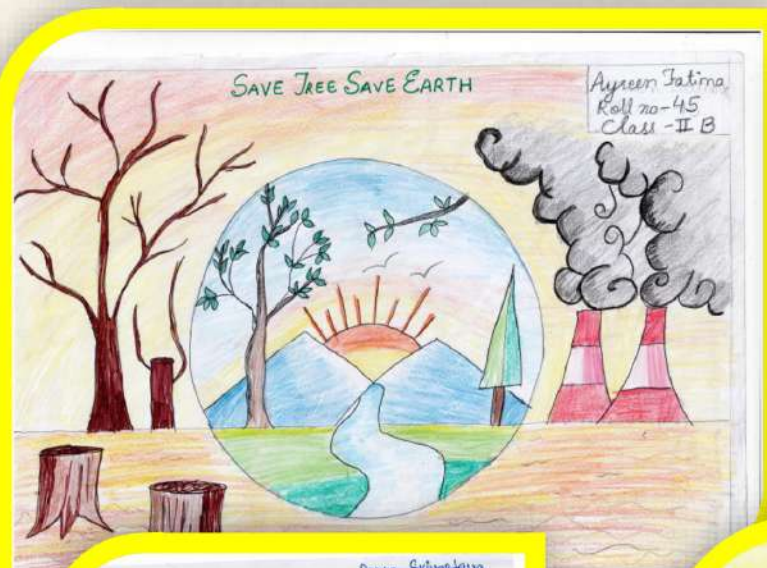

जो चले वो अकेले उनके पीछे
आज मेले हैं.... जो करते रहे इंतज़ार
उनकी
जिंदगी में आज भी हमें हैं ॥

Student's Parliament

For the first time in history of Mariampur School students Parliament was organised for class 11th Humanities. A dynamic platform was offered to the youngsters where they were given a mock Parliament set up and an exposure to the Parliament type debate to help them to respect and have tolerance for the views of others.

Navigating New Horizons

Insightful sessions on Life skills, career guidance, goal setting were conducted to empower the learners with effective study habits and to enhance mental stabilities were led by experience facilitators in their specific field.

The Teachers' orientation held in school was immersive experiences which aimed at equipping our educators with skills to integrate modern teaching and educational technologies.

Community Engagement

Tree plantation drive in a concerted effort to contribute the environment well being and to transform the campus into green heaven the school follows the tree plantation drive.

The traffic awareness program organised by the Nazeerabad Thana police in school fostered a culture of responsible road behaviour among students.

Charity Outreach With Less the Fortunate

During Christmas, Mariampur exemplified the true spirit of giving through a heart-warming charity initiative. Through Christmas collections, students gathered toiletries, miscellaneous articles like mufflers, caps and an array of eatables to share with the less fortunate children of St. Patrick's School and Mariampur Double Puliya, Kanpur. This act of generosity created a lasting memories of compassion and goodwill.

Labour Day

Farewell Class XII

A farewell party was organized by class XI to wish their seniors (Class XII) good luck for their upcoming board exams and all their future endeavours. It was not just a goodbye but a celebration of shared experiences and the beginning of new adventures for class XII students.

Science O Mania

The true sign of intelligence is not knowledge but imagination

The students of classes VI to VIII organized a science exhibition showcasing static and working model such drip irrigation, rain water harvesting, Chandrayaan III etc. It was a great experience for students.
