NEWS LETTER 2015-16 • VOL 14 • MARCH, 2016

Excellentia – 2016

VISION

On the wings of Excellence reaching to the Zenith with ethics, preparing young minds physically and emotionally balanced to be ready to face the challenges of the world catering to the aim of serving humanity.

MESSAGE FROM THE PRINCIPAL

'The Happiest people don't necessarily have the best of everything. They make the best of each and everything'

Parents are the single most important variable in a child's schooling. Parents model both a silent and spoken language in front of their children. We look forward to a productive partnership with the parents to ensure that the children achieve their highest potential. We recognise that in order to be successful in school, our children need support from both home and school. As every child is different, so let us set the stage of eliminating unrealistic pressures from their minds instead of running a rat race for superficial success. With a collaborative partnership let us create a vibrant environment to expand the horizon of knowledge and skills through mutual support.

Childhood is a free time of learning, exploration and growth. Let them grow under our weaved canopy of love and affection to develop self discipline and stimulate imagination.

We are proud to provide an outstanding educational opportunity for our students in a nurturing and faith embedded community.

We must invest our time and energy in our nation's most valuable resource – Our children.

Sr. Rose George

SOURCES OF INSPIRATION

'A mind like parachute works best when opened.'

The student today is an individual, a real person with feelings of self-respect, sensitivity, responsibility and compassion. We need to recognize, appreciate, applaud and foster the fine blend of sensibilities in a child and so this newsletter 'Excellentia 2015-16' is to be viewed as a platform for the children's creative urges to blossom naturally. This also espouses the school spirit which is built up within the school through collective actions and thoughts. All these I believe would spur higher growth and enterprise in children.

The inherent capability of each child has to be tapped to its fullest during her schooling years, so let us strive to make our children the confident architects of future.

Mrs. Caroline

'We look beyond the horizon, beyond the setting sun, Till we reach our goal, we're always on the run.'

We at Mariampur intend and strive to kindle the minds and enliven the hearts of our children with the light of knowledge and description so that they can equip themselves with adequate sensibility and sensitivity of head and heart and walk on the path of life, paving the way for others to follow. Every child here is meant to lead and unite the world and open new vistas for ideas and innovations which are meant to make the world a heaven for mankind, devoid of anarchy and discrimination with a spirit of universal brotherhood and global understanding.

The journey ahead is arduous. May our students be blessed to play their role in all walks of life. May the spiritual values that the institution holds up, of faith and trust in God, become the anchor to face the challenges around.

Mrs. Sangeeta Mehrotra

'If you want to be happy forever and ever, grow a garden.'

Dear All

The academic year concludes and gives way to another in the offing. I hope you all have realized your follies and have planned to overcome them. If you wish to reach the highest, go ahead with firm conviction to realise your objective. If you try to admire the nature at this time, you will notice a change in the air. Let us convince ourselves that if our plans went awry, it was all past. Present and the future are more significant. The present is in our hands. Grab every opportunity which brings happiness and good cheer, for this blooming nature is here to remind you of brighter side of life.

Mrs. Shifali Bhatia

Kiddies World

'Merry as skylarks, fresh as dewdrops

'Like lambs in frolic, all skips and hops.'

At a tender age, we nurture these young saplings with love and care so that these innocent minds are cradled to become high achievers in every sphere of life. We have watched a sapling to grow into a shady tree laden with fruits of knowledge. Our students have thrived on challenges as we had.

‘Roses bloom in sunshine and happiness, Little ones blossom in harmony and bliss’.

A range of opportunities were created for joyful learning. A child needs daily care and pruning just like plants. When we leave them to the random forces, we cannot predict well which way our children will grow. So, we must take care to choose whom we allow into a child's life. Our gems, rubies, pearls, garnets and corals of LKG and UKG classes participated enthusiastically in numerous activities based on the themes which reflected their way of imagination.

EUPHORIA

The Stupendous performances presented a glimpse of the varied talents of our students in the form of dances, songs, and multi-hued tableaus conveying the message of loving nature, unity in diversity, eradication of social evils and also to create awareness for yoga as a way of life. The colourful programme captivated and enthralled the audience. Our magisterial chief guest Rev. Father Sebastian Francis and guest of honour provincial superior, Rev. Sr. Rupa lighted the lamp and added a spark to the event.

CHARM AND GUSTO

"The will to win, the desire to succeed, the urge to reach your full potential....
These are the keys that will unlock the door to personal excellence."

It has been our constant endeavour to create an ambience where education does not end at learning facts. Excellence is a way of life here - where co- curricular activities are taken up to inculcate universal values and global understanding in children and make them ready to face the challenges.

To make the children realize their fullest potential and groom their personalities and sharpen their skills in eloquent expression. The activities held in school created a very congenial environment for children to exhibit their talents in different areas.

मेरी माँ

माँ का अनुपम प्यार, याद आता है मुझे हर बार।
खुदा न हो सके हर घर में,
इसलिए बनाया माँ शब्द का नाम।
उसकी करुणा उसकी ममता,
उसका ही है प्यार दुलार।
दुनिया में सर्वश्रेष्ठ है, माँ शब्द का नाम।
उससे अच्छा कोई नहीं,
लब्ज पर आता हर बच्चे के पहले माँ का नाम।
उसकी महिमा उसके दान का कोई अंत नहीं,
बहता रहता है गंगाजल की तरह सूर्य की,
तरह सदैव प्रकाशित करता हमारे जीवन को।
तभी तो होती माँ खुदा के समान।
होता तो माँ शब्द सिर्फ एक लब्ज का,
लेकिन छुपा पड़ा है रहस्य सदगुणों का।
माँ के चरणों में बसा है सारा जहाँ,
मेरी प्यारी माँ मैं करूँ तुझे सलाम, मैं करूँ तुझे सलाम।।

It Always Makes a Difference

It always made a difference

*It always makes a difference and it always will make a difference
we say we're not responsible to change the world, a lot is needed
though we are very sensible we doubt how the way is to be
mended A single tree cannot save the world pollution-it can never
be controlled. Garbage is thrown anywhere, poor roads can be
seen everywhere, accidents take place everyday.*

*We shout & hold each other responsible for it;
But we never care who is fit or unfit & pointing out anyone... no
one dares!*

*Resolutions we know what to make but proper decisions, no one
knows how to take!*

*Planting trees, not burning field are something which we've been
taught. Changes required are to be taken but proper measures
haven't been brought. We always think but never respond, we
don't want to rule or to command. A single person cannot do a
job, even if you're wrong, be with the job It's just that we're
scared of the truth*

*And speaking unnecessarily doesn't make sense then too each step
makes life intense because, it always made a difference*

*It always makes a difference and, it always will make a
difference..*

- Shivani Bhatia (XII- Sci)

PROVOKING THOUGHTS

1. When you'll start loving yourself, no one will have guts to comment on your personality.
2. Life is a game..... one wrong move and you will fall with baggage of regrets.
3. Darkness & sorrows are not always negative..... It gives strong wings to fly.
